Non Profit to Host Medium and Large Dogs Mobile Spay/Neuter Clinic in Lake Isabella

Lake Isabella, Calif. – September 2nd, 2011 – Did you know that medium and large dogs produce the largest litters of puppies that are the least-often adopted?

They are more likely to be outdoor dogs and more likely to get pregnant and roam free. Medium and large breed puppies and dogs fill the shelters and are most often the ones euthanized or caged for too long.

“Animal overpopulation is a tragic problem everywhere, but especially in many small towns of Bakersfield’s suburbs, primarily because low income pet owners can’t afford the high vet costs to fix their pets and they don’t have access to low cost clinic,” said Ha Adolfo, Founder of the Basic Needs Foundation.

That’s why her organization is hosting a special Medium and Large Dogs mobile spay/neuter clinics for pet owners who need financial assistance. Pet owners must live in Lake Isabella, Wofford Height, Weldon, Onyx, Bodfish, South Lake, Mountain Mesa, and Kernville in Kern County, California.

The clinics will take place on Saturday, September 17th from 7am to 4pm in the parking lot of the Lake Isabella Vons, located at 5610 Lake Isabella Boulevard, Lake Isabella, California 93240.

Medium and large dogs (45 lbs. and up) will be spayed/neutered at this event. Low cost vaccinations and micro chipping will also be available on the same date from 9am to noon.

To schedule an appointment, please call 1-888-504-SPAY (7729). The events are sponsored by Basic Needs Foundation, Vons, Margo’s Bark Soda Company, and Precision Pets Products.
