Non Profit to Host Free Spay/Neuter Clinic in Lake Isabella

Lake Isabella, Calif. – June 17, 2011 – Did you know that one intact female dog, plus her offspring and their offspring can produce 67,000 dogs in 6 years? And that a single pair of cats, plus their kittens and their offspring can produce 420,000 kittens in 7 years?

“Animal overpopulation is a tragic problem everywhere, but especially in many small towns of Bakersfield’s suburbs, primarily because low income pet owners can’t afford the high vet costs to spay/neuter their pets and they don’t have access to free clinics,” said Ha Adolfo, Founder of the Basic Needs Foundation.

That’s why her organization is hosting two free spay/neuter clinics for low income pet owners of Lake Isabella, Wofford Height, Weldon, Onyx, Bodfish, Mountain Mesa, and Kernville.

The clinics will take place on Saturday, August 20 and Saturday, October 22 from 7am to 4pm in the parking lot of the Lake Isabella Vons, located at 5610 Lake Isabella Boulevard.

Up to 45 animals will be spayed/neutered at each event. Feral cats will be vaccinated, medicated for ear mites and ear tipped. Low cost vaccinations and micro chipping will also be available on both dates from 9am to noon.

“Each pet owner will receive all required documents to get their pet licensed immediately with spay/neuter certificate, vaccination record, rabies shot and microchip,” said Adolfo.

To schedule an appointment, please call 1-888-504-SPAY (7729). The events are sponsored by Vons, Margo’s Bark Soda Company, Vet Depot and the Rotary Club of Kern River Valley.
